

# EVOLEC

## Modular AC Contactor - ELMC

# Modular Contactor

## ELMC

### General

ELMC series AC contactor are compact, DIN rail-mountable electrical switches for controlling medium-to-large loads (like lighting, HVAC) in homes and buildings, offering silent, energy-efficient, and easy-to-install automation by remotely making/breaking power circuits, differing from industrial contactors by their size and noiseless operation in residential panels.

### Features

- Compact & DIN Rail Mountable
- Low Noise
- Energy Efficient
- Versatile
- Automated Control

### Technical data

Parameter		Data			
		25/20	25/11	25/22	63/22
Rating AC Current	AC-7a	25A	25A	25A	63A
	AC-7b	8.5A	8.5A	8.5A	20A
Width		18mm	18mm	36mm	54mm
Control voltage		230V	230V	230V	230V
Rated Frequency		50/60Hz	50/60Hz	50/60Hz	50/60Hz
Contact		2NO	1NO+1NC	2NO+2NC	2NO+2NC

### Overall and Dimention (mm)
